## DAM IN CREEK TO BE REPAIRED

A meeting of all those interested in the repairing of the dam, was held in the Municipal hall Sunday afternoon.

The secretary's report was read and it showed a balance of \$72 in the bank.

The following officers were elected:

President, J. A. MacDonald.  
Vice-President, C. Nash.  
Sec.-Treas., S.F. Torrance.

Executive Committee: Jas. McLeod, J. Greenan, R. J. Fairbairn and L. Poxon.

Considerable discussion arose as to the best way and means of fixing the dam in the creek and a committee composed of D. F. McKinnon, G. Trepanier, F. Seymour and H. Bruels was elected to look into the matter and decide what is to be done immediately.

It was decided to have a sports day in Carbon on Friday, July 1, and the following committees were appointed to look after the various events.

Water sports: H. Bruels, C. Nash and J. Greenan.

Field sports: J. Atkinson, R. Co-burn and J. McKelvey.

Baseball: P. Edwards, G.F. McGregor and Jas. McLeod.

Football: W. Reid, L. Poxon and G. Wise.

Grounds committee: J. A. MacDonald, F. Seymour and D. F. McKinnon.

Finance Committee: R. J. Fairbairn, J. A. Toombs and E. Rouleau.

Advertising: C. Nash, J. Greenan and J. A. MacDonald.

Dance: A.F. McKibbin, J. McLeod and E. J. Rouleau.

Further particulars of the sports will be announced later.

Betty McQuade received a nasty cut in her leg while playing on Saturday evening. She was playing on the roof of the house and stepped too close to the edge catching her leg on a broken eave and falling to the ground. The doctor was called and he put four stitches in the wound and Betty is around again just as if nothing had happened.

The Carbon Junior ball team won against the Rockyford team on Wednesday evening by a score of 13-2.

## TENDERS FOR SCHOOL HOUSE

Sealed tenders will be received by the Board of Trustees of Gamble School District No. 1515 at the office of the Secretary-Treasurer up to noon, June 11, 1927, for the erection of a one roomed frame school building after Plan Number 63 C-538. Plans and specifications may be obtained from Secretary-Treasurer on payment of a deposit of \$5.00. Plans must be returned within 24 hours, and deposit will then be refunded. A marked cheque for five per cent. of the amount of tender should be enclosed with each tender as a guarantee that same is bona fide. The lowest or any tender will not necessarily be accepted.

We are sorry to learn that Chas. Gordon met with a serious accident last week when he went into a stall in which were a pair of strange horses. One horse kicked him and the other stepped on him, breaking his arm.

Mr. and Mrs. Hart and Mr. and Mrs. J. McKelvey motored to Calgary on Wednesday to attend a meeting of the Presbytery.

Mr. J. Ferguson has purchased a 1926 car from McCulloch's Ltd.

G. Gibson is drilling a well on the new school site.

The Canadian Pacific Railway made an excellent showing in 1926, gross revenue for the twelve months being the best shown since 1920, while net revenue was the best shown since 1917, being nearly 4 1/2 million ahead of the fine record of 1925. In gross earnings from railway and lake steamers the year resulted in a very notable increase over the preceding fiscal year, the showing being one of the best on record, while income from special sources, including ocean steamers, held up well, being only slightly below that of 1925, and also being one of the best exhibits ever made by the company.

## Blue Sky Laws Badly Needed

With better times now prevailing and business expanding in all directions, work plentiful and wages good, high pressure salesmen of stock in all numbers of companies are again much in evidence. Some of the propositions laid before people who have a few dollars to invest are sound enough, others are speculative to a degree, with the probabilities that any money invested will be lost or, at best, will not be productive of dividends for years to come. The more glowing the prospects held up to the gaze of the innocent investor, the greater the possibility that the investment is a decidedly risky one, in fact, not an investment at all.

Unfortunately, it is an extremely difficult matter for anybody but an expert, or those who make it their business to keep fully informed, to distinguish between the good and the bad of the stock selling propositions presented to the general public. The only safe course to follow before making investment in any stock is to consult a banker or some reputable financial institution. It is better to be safe than sorry.

It is furthermore unfortunate that the company laws of Canada do not provide adequate protection of the public against these professional promoters of questionable stocks and so-called securities. Canada has reason to be proud of its general code of laws, but in this one respect the Dominion of Parliament has been sadly neglectful of its duty in that it has not provided safeguards against the people of Canada being victimized by persons and corporations offering questionable stock for sale to an unsuspecting public.

Some provincial governments have endeavored to protect their people only to have their best efforts largely defeated because of the refusal of the Dominion authorities to supplement those efforts. As a result thousands of Canadians every year are robbed of millions of hard earned savings.

For example, some years ago the Saskatchewan Legislature passed an act prohibiting the sale of stocks of any kind within the Province unless the company offering the same first submitted their proposals to the Local Government Board and obtained the approval of that Board and its consent to the stock being offered for public subscription. Certain companies incorporated under Dominion charters challenged the right of the Province to so restrict their stock selling activities, and, upon an appeal to the courts, the Saskatchewan law was declared invalid in so far as companies incorporated at Ottawa are concerned. The situation, therefore, is that any company holding a provincial charter and whose stock the Saskatchewan Local Government Board will not permit being offered for sale, has only to obtain Dominion incorporation at Ottawa to defy the Saskatchewan Legislature and sell any kind of stock it likes, good or bad.

It will be recalled that much the same situation existed when the Provinces first adopted prohibitory liquor laws. The Provinces could and did prohibit the retail sale of liquor, but they were powerless to stop its manufacture within their boundaries, and equally powerless to prevent it being brought into the province from other provinces or foreign countries, because this would be to interfere with trade and commerce which come solely within Federal jurisdiction. Public opinion, however, became so aroused that the Dominion authorities were forced to bow before it, with the result that the law was amended to provide that where a Province adopted prohibition it became unlawful under Dominion law to ship liquor into that Province.

There is need for a similar enactment in relation to Company incorporation. All that is needed is a very simple amendment by the Parliament of Canada to the effect that, where any Province passes an Act prohibiting the sale of stock in any company unless the same has first been approved by Provincial authorities, such law shall be applicable to a Company incorporated under Dominion charter in so far as that province is concerned.

To the average citizen there would appear to be no insurmountable difficulty to the passage of such a simple and reasonable amendment. In fact, the average citizen would imagine that the Dominion Government would be just as anxious as Provincial Governments to protect their people from being victimized by unscrupulous company promoters and stock salesmen. The amazing thing is that, notwithstanding pressure from Provincial Governments, representations from reputable business organizations, strong editorial appeals by financial and other papers, the Ottawa Government declines to do anything, but allows a deputy minister at Ottawa to stubbornly block all efforts made to provide ample safeguards to protect Canadian citizens.

Representations have for some months past been made to one Provincial Government regarding the operations of one of these high pressure stock selling concerns, and protesting against what amounts to legalized robbery, but all the Provincial authorities can do is to admit they are powerless because the Company in question operates under a Dominion charter.

And within recent weeks this very Company has been shown up in reputable financial journals as having secured over \$5,000,000 from Canadian citizens, of which considerably more than \$1,000,000 went into the pockets of a subsidiary company as "commission" for selling the stock. In fact, the parent manufacturing company has less than one dollar to show for every two dollars invested by the public. Not only so but the Company has never declared a dividend, and for every dollar's worth of goods it has manufactured and sold it has cost the Company five dollars to make the sale. Yet this Company is still being permitted to sell stock throughout Canada and is doing so to unsuspecting people on the strength of rosy promises of big dividends to come.

It is high time that a certain cabinet minister at Ottawa freed himself from the influence of a reactionary and autocratic deputy head, and drafted legislation to be presented to Parliament at its next session upholding and supporting the Provinces in their efforts to put an end to this stock-jobbing and legalized robbery, which today is a blot on the fair name of Canada.

## Chinese First Paper Makers

Learned Method by Watching Wasp Says Old Legend

According to an old legend, the Chinese first learned to make paper by watching the wasp build her nest. A Chinaman, watching the wasp one day, discovered that she took a bite of wood, chewed it into paste, and smeared it on her nest. When the paste became dry, it turned into something like the present day paper. Thus the Chinese learned to make paper from wood long before any other people in the world.

## Canadian Offices in London

Offices of Immigration and Trade and Commerce May be Combined

Hon. Robert Forke, Canadian minister of Immigration, and Hon. James Macleod, minister of trade and commerce, while in England this summer, will jointly consider the feasibility of combining in one building the branch offices in Britain and on the continent of their respective departments. It is understood, such a procedure would eliminate duplication of premises and to a certain extent duplication of office staffs.

Mr. Macleod has already received intimations that the allocation of \$100,000 for advertising Canadian goods in Britain will not go very far in making a widespread appeal. It is understood that one suggestion meeting favor is that when big English stores take a large space for general advertisement, Canada should pay a proportion of the cost for whatever amount of space calls attention specially to Canadian goods.

## NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child. The Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan, Ont., says: "We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make feeding easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Chautauqua Week

Next week, June 1-2-3-4, is Chautauqua week in Carbon and the committees are busy selling the tickets both in town and out in the country. The Chautauqua has a good program this year and now that seeding is done, no one should hesitate in getting a season ticket and take in all parts of the program during that week. If the Chautauqua Committee have difficulty in selling the required number of tickets this year it will mean that Carbon will be without this great en-

tertainment next year. Do your bit by getting your ticket from one of the ticket sellers and when the drive is made do not turn them down. In this way you will be doing your share in promoting the interests of Chautauqua.

Roger Babson, noted statistician, in addressing the Canadian Club of Toronto, said that in 25 years time Vancouver would be the greatest port on the American Pacific coast and that it was only a matter of time before the trade across the Pacific Ocean would equal, if not exceed, that of the Atlantic.

It is announced by the Hon. W. R. Motherwell, Minister of Agriculture, that a contract had been entered into with the Nova Scotia Public Fish Cold Storage Terminals, Limited, at Halifax, respecting the construction and equipment of a modern cold storage plant at Halifax, to be completed about November 1st, 1928.

It has been officially announced that the Canadian Pacific Railway will operate the Hereford Railway which extends in Quebec from Lime Ridge to the United States boundary, passing through several Eastern Townships, including Cookshire, Sawyerville, Malvina and down to Paquette. This line has not been operated since November, 1925.

Over 1,000 members of the parish of St. Aidan's Church, New Jersey, journeyed to Montreal over the Canadian Pacific lines on Easter Monday to visit the famous Oratory of St. Joseph. The visit was in the nature of an act of thanksgiving for the miraculous cure last year of their pastor, Rev. Father Roger McGinley. Father McGinley had been suffering from heart trouble for some years preventing his entering the pulpit. Following a visit to Brother Andre, however, in Montreal, his condition improved almost instantaneously. Within a few days he was able to address his flock.

Passengers on the Canadian Pacific flagship "Empress of Scotland," now completing a world cruise, visited the ruins of the site of the old city of Panama destroyed in 1671 by Sir Henry Morgan, the famous English pirate. The ruins have come into the limelight recently on account of the fact that treasures valued at over \$50,000 have been discovered by a young English fortune hunter, Lieutenant George Williams. The discovery, which was made by means of a delicate violet ray detecting instrument of his own invention, consisted of gold Church ornaments, gold dust and jewels. The delicate instrument still indicates that larger treasures exist at this site.

Reports received by the Provincial Department of Agriculture indicate that the crop acreage this year will be much larger than last year. Some of the estimates show as much as 500,000 acres in advance of 1926.

## Italian Arrested For

Selling White Bread

Law Imposed by Mussolini Forbids Any But "Economy Loaf"

Snooping fascists, at Naples, followed a hearse. Sniffing, they inhaled the aroma of fresh bread. Soon the mortician was handcuffed, his hearse found to contain white loaves. Weeping, imploring, the wretched culprit was dragged away, was jailed. He had broken the law forbidding the baking, transport, or sale within Italy of bread whiter than the "economy loaf" imposed by Signor Mussolini—a loaf either of whole wheat flour, or of white flour mixed with coarser grain. Since the mortician-baker had with him a list of rich Neapolitans who have been buying his bootlegged bread, these potent folk trembled, feared arrest or fascist reprisals for their iniquity.

## WEAK AND NERVOUS

The Condition of a P. E. I. Lady Who Again Rejoices in Good Health

"I can most heartily recommend Dr. Williams' Pink Pills to all weak people," says Mrs. Augustin Arsenault, Wellington Station, P.E.I. "Before I began their use I was very weak and nervous. I had always worked hard, with no thought of my health, until suddenly my strength left me. I began to feel tired and depressed, and did not sleep well at night, feeling just as tired in the morning as when I went to bed at night. I began to feel discouraged when I would think of the work necessary for me to do. I got some medicine from the doctor whom I consulted, but it did not appear to meet my case as I showed no improvement while taking it. Then a neighbor advised me to try Dr. Williams' Pink Pills and I got a supply of this medicine. I very soon found they were helping me, and I continued their use until I was well again, and I have been strong and well ever since."

Dr. Williams' Pink Pills do one thing—and do it well. They build up, purify and enrich the blood, and as the blood supplies the whole body, new life is given to the entire system. Better sleep, steady nerves, improved appetite, increased vigor—all these can be yours by taking Dr. Williams' Pink Pills. Begin today. Sold by all medicine dealers or by mail, post paid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## SUNDAY SCHOOL LESSON

MAY 15

PETER AT PENTECOST

Golden Text: "Repent ye, and be baptized every one of you in the name of Jesus Christ unto the remission of your sins; and ye shall receive the gift of the Holy Spirit."—Acts 2:38.

Lesson: Acts 2.

Devotional Reading: Philippians 2:5-11.

## Explanations and Comments

1. The Coming of the Holy Spirit at Pentecost, verses 1-4.—Before He left His disciples Jesus gave them a great commission. They were to convince others that He is the Son of God, that He lived and taught as only they could fully testify, that He willingly suffered death on the cross for the salvation of the world, and that He had arisen from the dead and ascended into heaven. "Jesus Christ and the power of His resurrection" was a truth which the world would not readily accept. Only through power given them from on high could these men accomplish their great task.

On the Day of Pentecost that power came. There was a sound as of wind and an appearance as of fire, symbols of the Holy Spirit. The disciples found themselves praising God in words that sounded strange to them. The important fact was that they then realized that the Spirit of God had come into their hearts, that He was to abide with them as their Strengthener and Helper, to inspire and guide them in the work of making the Christ known to the ends of the earth.

"The Holy Spirit is just God making man understand Him, God making Himself intelligible to men, God speaking to each kind of man in his own tongue."—John Kelman.

## How Should I Wean My Baby?

This is a serious problem to many mothers. Weaning should always be done gradually, beginning about the seventh month, giving one or two bottle feedings during the day, increasing the number of bottle feedings gradually until weaning is accomplished. Borden's Eagle Brand Milk is so like mother's milk in taste and ease of digestion that it can be given alternately with breast milk without causing abrupt weaning.

In this paper from time to time you will find an advertisement of Borden's Eagle Brand Milk, a food that has raised more healthy babies than all the prepared infant foods combined. Cut out the advertisement and mail it to The Borden Company Limited, Montreal, and they will send you, free of charge, instructions for feeding your baby, and a Baby Welfare and Baby Record Book. Or, just write the Company, mentioning this paper, and they will be sent.

## A Memorial Window

To Be Erected in Winnipeg in Remembrance of Major-General L. I. Lipsett

A memorial window for Major-General L. I. Lipsett, general staff officer, who commanded the 8th battalion C.E.F. during the war, is to be placed in All Saint's Church, Winnipeg. An inscription stating that it is erected to the memory of General Lipsett by the 3rd Can. Division, 2nd Can. Infantry Brigade, and the 8th Battalion C.E.F., will be placed underneath. War veterans throughout western Canada who may wish to subscribe to this memorial fund, may send any amount, no matter how small, as it is wished to make the subscriptions as representative as possible. Remittances may be sent to Mr. F. L. Patton, assistant general manager Dominion Bank, Main and McDermot Streets, Winnipeg. Subscriptions to be sent not later than June 1st, 1927.

Praises this Asthma Remedy. A grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. Its use is simple, its cost is slight, and it can be purchased almost anywhere.

## Spring Tints

Gaily colored frocks this Spring! Underthings in soft shades to match. Tint them in ordinary water—but with true dyes. Dipping will do it—in ordinary cold water—but you must have real dye to get a smooth, perfectly even tone.

Diamond dye powder is fifteen cents at any drugstore; so why do half a job with something not half so effective? And when you want the tint to be permanent, just dip in boiling water instead of cold.

The druggist has color cards and simple directions for doing perfect dyeing of all sorts of material; silk or wool; linen, cotton goods, mixed goods, or any goods at all; and exquisite tinting of dainty things. Or, send for a marvelous book of suggestions in full colors. Ask for Color Craft! Address: DIAMOND DYES, Dept. N31, Windsor, Ontario.

## DEBT PAYMENTS HEAVY DRAIN ON GREAT BRITAIN

London. — Expressing great indignities because of the divergence of opinion and estrangement of sentiment growing up in regard to the war debts, the British Government, in a note to the United States, challenged the accuracy of the statement of March 17 by Andrew W. Mellon, secretary of the United States treasury, that Great Britain's debt payments to the United States will not constitute a drain on British economic resources.

Citing what the British Government regards as errors and inaccuracies in Mr. Mellon's statement, the note expresses "trust that the United States Government will take steps to remove the unfair impression that has been created" by the issuance of Mr. Mellon's statement.

The note, which was delivered to Secretary of State Kellogg, by H. G. Chilton on behalf of Ambassador Howard, who is absent from Washington, takes up the specific position of Great Britain on war debts as mentioned by Secretary Mellon in a letter to Dr. John G. Hibben, president of Princeton University, in reply to a statement by Dr. Hibben and 116 members of the Princeton faculty. This latter statement endorsed the open letter of the faculty of political science of Columbia University, recommending reconsideration and revision of the debts settlement made with the former allies of the United States.

## Begin Hike Around World

### Second Trip For New York Man Will Occupy Ten Years

New York. — Marcus Barone, hiker, who has made one journey around the globe afoot started another, accompanied by a shepherd dog.

Barone hiked from 1912 to 1927 to make his first trip. He plans to spend 10 years on the second. Man and dog carry packs on their backs and sleep in the open every night. The dog wears shoes.

They will go first to Canada and thence to Alaska, traversing China, Japan, India and Persia, not returning until they have visited every country in the world. Barone will work his way across oceans.

## Cruiser and Subs for Sale

### Formerly Part of Canadian Navy Are Now Obsolete

Halifax, N.S. — Tenders are being called by the Dominion salvage office for the purchase of H.M.C. cruiser Aurora, and two submarines, Nos. 14 and 15, now considered obsolete, formerly a part of the Canadian navy. The cruiser and submarines have been laid up at the dockyard here for some years, and are now thrown open for the inspection of prospective purchasers. Tenders close on May 30. The Aurora and the two submarines were presented to Canada by the admiralty shortly after the conclusion of the war.

## Moslem Women Revolt

### Fifteen Thousand in Parade Burned Veils in Public Square

Moscow. — Thousands of Moslem women in Russia, Turkistan seized the May Day celebrations as an opportunity to declare a revolt against the tyranny of the veil, say advisers received from Samarkand.

Fifteen thousand women paraded unveiled in Samarkand. At Tashkent, in the presence of 25,000 persons, the defiant women threw their veils in a heap in the public square and burned them amid cheers and groans from the spectators.

At Khokland 150 veils were burned.

### Barely Escapes Train Wreck

Seville, Spain. — Only a few minutes after the royal train bearing the Prince of Wales and the Spanish sovereigns to Madrid had passed the point, a train wreck occurred at the station of Palma Rio. Two persons were killed and four injured when the Andalusian express collided with a freight train.

Alberta — J. H. Woods, Calgary Herald.

British Columbia — F. J. Burd, Vancouver Province.

At a subsequent meeting of the newly-elected board of directors, officers for the year were re-elected as follows:

Honorary president, E. H. Macklin; president, J. H. Woods; first vice-president, John Scott; second vice-president, Henri Gagnon; general manager and secretary, J. F. B. Livesey.

## Cattle Law Not Authorized

### British Cattle Men Protest to Government Against Delay

London. — A number of resolutions passed by borough councils, protesting against the delay in authorizing importation into Britain of non-tubercular Canadian cows and heifers, have been received by the Government.

This was the reply to questions in the House of Commons made by Sir Harry Barnston on behalf of the Minister of Agriculture.

Sir Harry further said the minister had not the slightest intention of altering his decision not to permit the admission of non-pedigreed breeding cattle from Canada.

The questioner referred to the opinions of Chief Medical Officers and chief veterinary officers to the effect that it was very dangerous to introduce Canadian heifers to Britain because they were much more prone to tuberculosis than British heifers. Another member asked whether the understanding reached at the 1923 Imperial conference was that the only cattle to be imported were fat cattle for slaughter, or pedigree stock and not cows and heifers.

## More Letters Written

### Reduction in Postage Rates Increases Volume of Mail Matter

Ottawa. — The establishment of penny postage in Canada has had the effect of cutting down the revenues but, also, of increasing the volume of mail matter.

The revenue from letters prior to the reduction on July 1 last was roughly \$18,000,000 per year. The reduction from three to two cents applied to the same volume of business would therefore cut the receipts by \$6,000,000. The showing, however, promises to be much more favorable.

### French Cruiser Launched

Paris, France. — France's new 10,000-ton cruiser Suffren, constructed in accordance with the Washington naval accord, has been launched. The vessel has a speed of 33 knots, carries three hydroplanes and possesses a powerful anti-aircraft battery.

### Consul General to Retire

Ottawa. — Hon. John G. Foster, United States consul-general at Ottawa for more than 23 years, is retiring July 1 of this year. It was made known here. It is understood his successor has been selected, but no public announcement of his name has yet been made.

### B.C. Horses for Russia

Victoria. — British Columbia horses will be shipped to Russia shortly under plans announced by Russian purchasers who arrived in Kamloops to confer with local horse breeders. Several thousand animals will be bought by the Russians in this province if this number can be secured. They will be shipped via Montreal.

## PLAN EXCHANGE OF GREETINGS FOR DOMINION DAY

Ottawa. — Acting on behalf of the national committee for the celebration of the jubilee of Confederation, Right Hon. Senator George P. Graham, chairman, is arranging for a unique exchange of greetings, which will serve on July 1 to emphasize the unity which exists throughout the Dominion. The committee in the first place urge that on the morning of Dominion Day, wherever celebrations are held, the message of His Majesty the King shall be read. In addition, Senator Graham has suggested to His Excellency Viscount Willington that there be an exchange of telegraphic greetings between himself and the Lieutenant-Governors of the provinces. To the suggestion His Excellency has cordially acquiesced as have the Lieutenant-Governors.

In order that the chain of greetings may be complete it has also been suggested that the Lieutenant-Governors exchange greetings with each other, and that there shall further be an exchange between Premier King and the Premiers of the nine provinces of Confederation.

## Developing Idea of Universal Insurance

### Vancouver Liberal Believes System Will Soon Be Leading Plank of Party

Vancouver, B.C. — Prediction that within a short time the outstanding policy of the Liberal party of Canada would be a scheme of universal public insurance covering not only old age pensions but also maternity benefits, invalidism, accident and unemployment, was made by Captain L. A. McKenzie, M.L.A., in addressing the Vancouver South Liberal association. The foundation for such a policy had been laid by Sir Richard Cartwright many years ago with such an annuity scheme, he said. The leaders of liberalism in Canada had since developed the idea until the logical outcome must be a universal insurance scheme.

### Re-opening Rheims Cathedral

Paris. The Rheims Cathedral is now completely restored and will be reopened for religious services on Ascension Day, May 26. It is announced.

Solemn high mass will be conducted by Cardinal Luçon, in the presence of a delegation from the committee which administered the gift from John D. Rockefeller, Jr., and the British and Danish committees who contributed financially to ward the reconstruction work.

## Wedded to His Post

### Premier Ferguson of Ontario Has no Designs on Any Public Position

Cooksville, Ont. — "I have no designs on any public position," Premier Howard Ferguson stated in an address here to Peel County Conservatives gathered in compliment to Colonel T. L. Kennedy, member of the Legislature, and Sam Charters, member of the Dominion House.

The Premier made the statement so he said, to all the suspicions of the "anti-trust" young gentlemen of the press, who had read in recent speeches of his the "brilliant purpose" of making overtures to Ottawa.

Later in his address the speaker made another reference to the subject. Following a review of his policy of making "new men from wayward boys," and of making life brighter for the youth born under physical handicaps, the Premier added:

"Things like these are what wed me to the Province of Ontario and its service, instead of seeking wider fields where I would not be as happy and contented."

## Will Set Fruit Prices

### Selling Method of British Columbia Board Should Benefit Consumers

Winnipeg. — Prairie housewives will pay no more for their fruit this year than in other seasons, declared P. M. Black, former provincial treasurer, and now chairman of the board of control, which will fix minimum prices for all British Columbia fruits and vegetables and issue licenses to shippers. Mr. Black, who has just returned from the Coast, said the scientific method of selling under the British Columbia board should benefit the consumers. The growers of the Coast were solidly behind the new scheme, he said, since they believe it offers a way out from their difficulties caused by years of disorganized marketing.

## Whaling Fleet Prepares

### North Pacific Fleet Conditioned for Season's Operations

Victoria. — The North Pacific whaling fleet is now being conditioned for the summer's hunting expeditions off the coast of Vancouver Island and Northern British Columbia and by the middle of May all the vessels will be at sea, scouting for the giant mammals.

Early in May four of the little steel steamers of the Consolidated Whaling Company's fleet will leave port for Rose Harbor, the base of the whaling operations at Queen Charlotte Islands, and a few days later the Naden harbor station will be opened with two more craft operating out of that port.

## HON. J. A. ROBB STARTED LIFE AS A MILLER'S BOY

Kingston, Ont. — Hon. J. A. Robb, Minister of Finance, today was in a mood of confessions. He told the students of Queen's where he received the honorary degree of LL.D., how narrowly he escaped becoming a preacher and how, as a miller's boy, he once took toll of the farmers' grist.

"At the age of 16," said Mr. Robb, "I was foolish enough to leave the high school, after refusing the very kind offer of my father's friend, a clergyman, who, having no children of his own, offered to pay all my expenses through Queens, providing I would agree to enter the ministry and become a preacher. But I did not lean that way, feeling then as I do now that I was not good enough to preach the gospel to others. And so I left the farm with its comforts, its joys, its drudgery and its great independence, to learn a trade and make a living as a dusty miller."

Mr. Robb turned the pages of another chapter. "During the first years in the mill," he went on humorously, "my duty was to sweep the floors and toll the farmers' grists. Now my duty is to toll the taxpayers of Canada and sweep in all the taxes they can't dodge."

Mr. Robb urged that in their studies of national problems, the students of Queens should study human nature more than geography and statistics.

He pressed that national unity was the special duty of public men, that all should work for a greater and better Confederation — a Confederation not of land but of people.

## Want "First Canadians" To Help Celebrate

### Indians and Eskimos Will Take Part in Jubilee of Confederation

Ottawa. — It is anticipated that Indians and even Eskimos will in many centres of Canada take a prominent part in the forthcoming celebration of the jubilee of Confederation.

It is regarded as highly desirable that as many of these "First Canadians" as possible shall take part in the celebration of the 60th birthday of Confederation. All applications from local committees for participation by the Indian people will be considered by the department, it is said.

Excepting in the more or less settled points at Aklayik, Arctic Red River, and other places on the Mackenzie, it is not expected that the Eskimos will take much part.

The suggestion thrown out by the national committee for the celebration that a maple tree be planted on July 1 at every point where celebrations are held is meeting with lively response. Already a very large number of committees have the matter in hand and are selecting the most suitable spot for the planting of "Confederation trees." The project, it is believed, will be widespread.

## Heads Grain Board

### Leslie H. Boyd Appointed for Another Period of Ten Years

Ottawa. — On the recommendation of the Minister of Trade and Commerce, the Government has appointed for another period of ten years Leslie H. Boyd, M.C., as chairman of the Board of Grain Commissioners with headquarters at Fort William. Mr. Boyd's salary is fixed at \$10,000 per year. Before going to that position in 1917, Mr. Boyd was a prominent lawyer in Montreal.

Some efforts to have him replaced by a western politician were made some weeks ago, but were not entertained and the re-appointment was not unexpected.

### Goes to Privy Council

Victoria. — Decisions of the three Canadian courts declaring the British Columbia fuel oil tax unconstitutional will be appealed to the Imperial privy council by the provincial government in July. It was announced today. Leave to take the case to higher court in the British Empire was called here by the Privy Council this morning.

## GOVERNOR-GENERAL VISITS WINNIPEG

His Excellency Viscount Willington, Governor-General of Canada made his first official visit to Winnipeg on Saturday afternoon, April 23rd, and he received an enthusiastic reception from thousands gathered in front of the station of the Canadian National Railway and lining both sides of the route along Main Street to the City Hall.

The photograph shows the viceregal party on the platform of the station immediately after the arrival of the train. From left to right those in the group are: Viscount Willington, Lady Willington, and His Honor T. A. Burrows, Lieutenant-Governor of Manitoba.

# Hudson's Straits Air Survey To Undertake Hazardous Work In Northern Waters This Summer

The Hudson's Straits air survey expedition will set out from Halifax on board the Canadian government ship Stanley, early in July, according to information from Ottawa.

For the following fifteen months the Royal Canadian Air Force detachment will be engaged upon one of the most intensive and hazardous flying jobs ever undertaken in the North. It is stated, the flights across the Pole were brilliant feats, but they were in the nature of short dashes, involving some hours of endurance, but the Royal Canadian Air Force work will require fifteen months of day to day flying under all kinds of Arctic weather conditions for the purpose of observing fog and ice conditions.

During the early summer six Fokker seaplanes will be put through severe tests and conditioned for the work in the North. Nearly fifty officers and men under Flight Lieutenant Lawrence will be engaged on the work.

The planes, along with a vast amount of material including all food and clothing, fuel and building materials, will be packed on board the Stanley. The expedition will be broken into three detachments upon the arrival at the straits. One depot with twelve officers and men and two planes will be established on Nottingham Island, which is in the centre of the western end of the straits. Another depot with a similar establishment will operate from Port Burwell, on the northern tip of Labrador, while the headquarters station will be at Lake Harbour, on Baffin Island, about halfway through the straits.

Powerful wireless equipment will be taken north and it is expected that the expedition will be in almost daily touch with the Air Force headquarters in Ottawa.

The navigation part of the survey will be under the direction of the Department of Marine and Fisheries and it is quite possible that Alex Johnston, deputy minister of the department, may go north on board the Stanley in July. The Stanley, which is now being reconditioned, will not stay in the straits throughout the winter, but will return south late in the summer.

Parliament at the last session approved a vote of \$800,000 for the survey, but unofficial estimates put the total cost at nearer a million dollars. It is pointed out, however, that at the conclusion of the work there will be a substantial salvage: the Air Force will have the seaplanes and the Department of Marine will have the reconditioned Stanley, which has been out of use for some time past.

The Air Force report will be made to the Government and upon the results of its findings of ice and fog conditions in the strait depends much of the future possibilities of the Hudson's Bay Railway. At the other end of the Hudson's Bay route there will also be flying activities this summer. A private flying company has been taking in men and equipment from the present end of steel to Port Nelson and Fort Churchill and before the end of the summer Hon. Charles A. Dunning may look over the terminal possibilities himself by seaplane.

The Air Force expedition is quite separate from the annual trip of the Northwest Territories officials. This voyage will be carried on as usual, taking mounted police and scientists in and out of the Arctic.

## Americans Buy London Clothes

"Many American visitors regard their hotels as clearing depots for old clothes," said an official of a leading hotel. London being regarded as the world centre of masculine fashions, the visitors take opportunity while there to catch up on style. Some patrons have left as many as ten suits behind them.

"Why is it that you have broken off your engagement, Alice?" asked her fair friend. "Oh, my dear! He told me he was connected with the movies, and the very next day I saw him driving a furniture van."

## De Luxe Airplanes On London-Paris Route

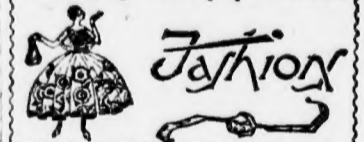

Machines Are Capable of Carrying Twenty Passengers Each

Airplanes with buffets, bars and other luxuries have been put on the London-Paris service by the Imperial Airways. Planes will leave each city at noon daily and the line will be known as the Silver Wing Service. As there are no regulations for licensing airplane restaurants or bars the company will be able to sell food and drink aerially without a license. Each plane will carry a steward.

Three-engined Argosy machines capable of carrying twenty passengers each, will be used in the new service.

The company has decided henceforth to name all planes after cities. For some time planes named the City of New York and the City of Washington have been flying between capitals.

The Two-piece Frock is More Important Than Ever

This season the two-piece frock rules over a wider domain than ever, and on many days, the hours of its reign extend from morning to evening. Therefore, it must be practical, yet combine as well, a semi-formal charm for leisurely events. The model pictured here is a typical example of a sports costume that is smartly correct for either a morning of shopping, or an afternoon of bridge. The blouse slips on over the head and has a collar that may be worn buttoned high or turned back as illustrated. The front of the blouse has gathers at each shoulder and two patch pockets for adornment, the back being quite plain. The long set-in sleeves are gathered into tailored cuffs fastening with links. The string belt is a new detail and provides a soft bloused effect at the hipline. Fullness in the skirt is attained by two box plaits in the front. The Blouse, No. 1341, is in sizes 34, 36, 38, 40, 42 and 44 inches bust. Size 36 requires 2 1/2 yards 36-inch figured material; 1/2 yard plain. The skirt, No. 1341, is joined to a body lining, and is in sizes 34, 36, 38, 40, 42 and 44 inches bust. Size 36 requires 1 1/2 yards 36-inch material; body lining 1 yard. Price 20 cents each pattern.

## Raw Fur Production

Total Market Value of Pelts Taken by Trappers Reaches High Figure

To the value of \$1,500,000, the Canadian Fur Auction Sales, Limited, sold a wide variety of pelts in the recent five days' session at Montreal. "One of the best sales weeks we have ever staged," according to E. H. Pingree, general manager. Silver fox skins to the number of 2,600 were auctioned, the top price being \$115.

The total value of the raw fur production of Canada for the season 1925-6 was \$11,905,588, compared with \$15,441,564 for that of 1924-5, and \$15,643,817 in 1923-4. These figures represent the total market value of the pelts of fur-bearing animals taken in Canada by trappers or on ranches. In the order of importance, muskrat comes first with 1,953,545 pelts at \$3,014,175, followed by beaver with 111,707 pelts valued at \$2,208,855. Next came mink, red fox, white fox and silver fox.

## Alfalfa Seed For Denmark

Two Carloads of Seed From Alberta Shipped to Denmark Growers

The sale of Grimm's alfalfa seed, grown in the Brooks district, and shipped to Denmark is claimed as another "feather" in Alberta's cap. For some time past, experiments have been carried on in Denmark with this particular seed. So successful have these been, that the Danish growers purchased two carloads. The Danish growers would have taken twice that amount had it been available, but owing to United States growers placing large orders, the local seedmen have not been able to keep up with the demand. Growers of Grimm alfalfa seed have been paid \$40 an acre clear for their product.

## B.C. Has Advantage in Dairying

Stock Can be Pastured Practically All of the Year

The prediction has been made by Dr. G. C. Creelman, former president of the Ontario Agricultural College, that British Columbia will become the greatest dairying district of Canada. This is the conclusion he has made from a study of conditions on the Pacific Coast. One great advantage is that dairy stock can be pastured practically the whole of the year, whereas in Ontario they had to be fed six months in the year and 60 per cent of the produce of a 100-acre dairy farm with an average amount of stock had to be used for feed.

## Alberta Forage Crop Cars

Forage Crop and Poultry Cars Convey Information to Farmers

The forage crop and poultry cars which were operated in Alberta by the Canadian National Railways in conjunction with the Alberta department of agriculture have concluded their itinerary. Twenty places were visited and the movement was confined to districts in which the Western wheat-stem sawfly is now ravaging or in which the fertility of the soil, due to continuous grain growing, is rapidly becoming depleted. Where soil impoverishment is found, the inclusion of forage crops in the farming rotation will add fibre and increase the soil content of available plant food, and as sweet clover and the broad leaved forage crops are immune from attacks of wheat-stem sawfly, the growing of such crops will play an active part in controlling and eliminating this pest.

The total attendance was 1656 or an average of 82.8 persons per meeting. Forage crop seeds amounting to 6,559 lbs., valued at \$954.10 were sold, comprised of corn, 426 lbs., grasses, 2,819 lbs., sweet clover, 2,915 lbs., and alfalfa 400 lbs. At each point lectures on the value of forage crops in the farm rotation and their relation to the keeping of live stock were delivered by James Murray of the Alberta department of agriculture. Interest was keen and many questions on cultural methods were asked.

A lecturer on poultry gave talks on the fundamental principles necessary for the successful care and management of the farm flock. Much interest was shown by farmers in this phase of farming, which indicates they are rapidly becoming appreciative of the value of including side lines in their farming activities. Many farmers took the opportunity of commissioning the poultry lecturer to secure supplies of hatching eggs and day old chicks.

## Will Deliver Official Welcome

Premier W. L. Mackenzie King will deliver the official welcome on the behalf of the Dominion of Canada to the delegates to the World's Poultry Congress on the opening date, July 27.

Statistics show that nearly all motor accidents occur at weekends. Monday was once wash-day. Now it is the day when mother sees whether all her family have survived the weekend.

## First Refugee from Chinese War

Mrs. Melvin Southwick, of Harrison, N.Y., returned to New York, April 12th, aboard the world-cruising Canadian Pacific flag-ship Empress of Scotland, with her infant daughter (then 12 weeks old), who was born in Hankow, China, a few days before the inhabitants were ordered to evacuate. She went to Shanghai and thence to Kobe, Japan, where she embarked on the Empress of Scotland. Her husband is still in Hankow, acting as representative of the Standard Oil Company there. She

was met by her mother, Mrs. Freda Becker, when the Empress docked. Mrs. Southwick looks none the worse for her adventure, but that may be due to the kindness of the passengers on the C.P.R. vessel's world trip, who couldn't do too much for her and for whom her dramatic escape and presence on the ship added a final thrill to the many they had experienced on their globe-circling journey. As for Miss Southwick, she wasn't interested either in the Chinese or her numerous adventures.

Nowhere in the world have inland fisheries been developed as they have been in Canada. Apart from Canada's share in the Great Lakes fisheries which are valued commercially at some \$3,000,000 annually, there are tremendous bodies of fresh water literally teeming with fish of the highly edible qualities.

In all the three Prairie Provinces, numerous lakes and rivers, covering nearly 31,000 square miles in area, abound in valuable food fishes. Whitefish, the most abundant species, is unexcelled in quality and is in great demand, while pickerel, tullibee, lake trout, pike, goldeyes and sturgeon, with its attendant product caviar, also find a ready market. Other varieties include perch, millet, catfish and bng. Whitefish weighing over four pounds each, dressed, are known as "Jumbos" and bring the best returns. Dealers paid the following prices for the summer catch of 1926, on the basis of dressed fish at the point of shipment, — Jumbos, ten to fourteen cents per pound, and whitefish weighing less than four pounds each, from six to ten cents per pound.

Commercial fishing is for the most part carried on in the winter season, when the chilled or frozen fish may be shipped to distant points. This winter catch is marketed in the Canadian interior and adjoining American states. A large demand has been created in Chicago and numerous other middle western cities, while occasional shipments have been made to such distant points as Montreal and New York. Some summer fishing also takes place, the catch being marketed in the nearby towns.

The value of the fisheries from the so-called prairie provinces according to the latest official returns is \$2,365,000 annually although if the value of fish caught for domestic and sport angler's use could be estimated and added the total would doubtless be very much higher. The importance of the fish supply to native life in isolated northern districts is indeed beyond monetary value.

Some of the greatest lakes in the continent — Reindeer, Athabaska, Great Slave, Great Bear—and hundreds of other important but smaller bodies of water are still beyond reach of commercial exploitation through lack of transportation facilities.

During the past couple of years, according to information issued by the Natural Resources Intelligence Service of the Department of the Interior, there has been introduced into this inland fishing industry, a new branch of unusual economic importance, namely, the filleting of pike. Heretofore this kind of fish had no market value, but it has been found that fillets of pike, neatly packed in wooden boxes and shipped fresh on ice or freshly frozen, can be readily disposed of now in the markets which handle the whitefish.

Though the pike is a coarse fish and somewhat unattractive in appearance it has a good, wholesome food value, and when the edible portions are separated from the skin, bones and other waste, they can be shipped and sold to advantage. In fact this is the most economical manner of shipping many species of fish and the ready-for-cooking form in which the product is thus displayed in retail shops appeals favorably to the ultimate consumer. Enterprising fish dealers in some eastern section are now advertising their products in this form almost exclusively.

The introduction of this branch of the fishing industry to Western Canadian waters is proving of dual value. It not only enlarges the market range of the fisherman, enabling him to dispose of a product formerly valueless, but it encourages the capture of a destructive fish whose voracious habits make it a source of great havoc among the more highly prized white-fish, pickerel and other species. This filleting of pike is now being successfully prosecuted as far north as Lesser Slave lake where a plant is in operation.

## CHAPTER XXXV

### The Fete

Poppets and mannequins—puppets in conventional evening black that uniforms eager and blase men alike, and the mannequins of their joyous world in the peacock splendence that levels the cheap and the superb; Pierrots and Columbines, eyes shining with the thrill of youth that crosses every threshold with merry speculation—in endless stream they drove from every reach of the Riviera to the gates of Villa Amette.

Beyond the gates the gardens and terraces, miniature lakes and fairy-like structures in delicately pink stucco, were bathed in a dull silver flood of artificial moonlight. On the lakes tiny gondolas floated lazily, through waters rippled by dimly illuminated fountains that spouted faint perennials.

Hidden somewhere in a bow of orange trees an orchestra played its lamentations and its ecstasies of summer night passion. Tall palm-trees, feathery topped, black and fantastic, made bowers around benches and tables; great stretches of the lawns had been carpeted with crush-blossoms, purple lilacs, rhododendrons, hyacinths and clematis. Now and then, from the branches of a pepper or fig or pine tree, some fascinated bird of semi-tropic plumage, too curious to seek its nest, gazed down upon the scene with green-bright inquisitive eyes.

During the day the gates had been closed to all visitors. Only the workmen, caterers, electricians, and the spluttering, queer-mannered men who herded troops of dancers and more nondescript performers, had been allowed to enter the grounds. There had been frantic efforts in many quarters to break through the barrier so firmly guarded by watchmen, but none had been successful. Even the telephone, except that line which reached the offices of the servants,

had been shut off. So it was that even the intimates of Villa Amette, those who had watched the preparations from day to day, were utterly amazed at the splendor, the lavishness, the consummate artistry of the spectacle into which they strolled.

Teddy Dorchester, who had been one of those whose call during the day had been futile, stood amazed when, with his sister, Betty Weymouth, at his side, he turned about, on the highest terrace, to look over the sloping lawns. Betty exclaimed: "Truly, an appropriate whim for a Golden Girl!"

John took her suddenly in his arms. She did not resist but yielded to him limply.

"Darling, brilliant, extravagant!" Lord Teddy murmured. "But just the sort of thing we might expect from her! It's so barbaric; there is nothing haunting. It is a splash of countless money and magnificence but a mellow splash. Somehow I see a note of wisdom in it all."

Betty Weymouth was silent a moment. Then she said:

"Do you know, Teddy, I think you're right. There's something in this scene tonight, this fete, that isn't mere extravagance; it's meaning, I know, but I believe there's sadness in it, some place."

"Yes, like a beautiful woman. There's joy always; but for some one, sadness, too!"

Betty looked at her brother quickly, and understandingly. The sadness he sensed would be for him—that the girl whose spirit were being given expression tonight was beyond his honest want of her. "Come!" Betty said. "This is no time to be sentimental. There is Roddy Kenilworth, looking none the worse for that thrilling adventure he's rumored to have experienced last night with Joanna. Perhaps he'll tell us something. Nobody seems to know the straight of it!"

Kenilworth, who frankly admitted that he was provoked by Joanna's refusal to hear from him during the day, treated the inquiries by Lord Teddy and Betty whimsically. "Whatever you've heard isn't true," he said. "And what's true isn't interesting. Just a comic opera hold

up, with something fishy about it. The Monaco police notified me today that all valuables taken by the bandits had been mysteriously delivered to them in a package with the terse suggestion that they be returned to their owners."

"But Joanna?" Betty Weymouth asked. "You should never have taken her up La Turbie, Roddy. There are ugly hints about."

Kenilworth ignored the probing. "It is ten o'clock already," he observed, "and neither she nor Yvonne has appeared. Both of them have an admirable sense of the dramatic."

Foamers in scarlet and gold moved among the guests bearing trays on which cobwebby glasses and silver decanters clinked. Wines of Brittany and the more sensuous fluids of Bordeaux flowed freely. A young debutante from America, one of those whom Joanna used to copy but who, now, planned long and earnestly to hit upon ways of coping her, exclaimed to her companion:

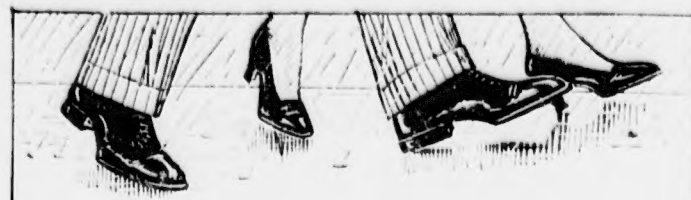

"It's like a scene in a stupendous movie only so different! A movie party is always so coarse and cheap. Here everything is on such a scale of splendor that is romantic! There is so much wine and champagne about, but no one is silly!"

An English countess whirled away on the imbuena hovered dance floor with a partner borrowed for the moment from a celebrated beauty from the chorus of the Folies Bergere. An Indian Prince, scornful of the rules of his caste, wrapped a spell with his sombre black eyes about a gentle girl in satin and pearls. A Deputy of France discussed his wife with a Monte Carlo maseotte in whose saucy head reposed the secrets of many other wives.

Into this enchanted garden the Golden Girl walked at last, with Yvonne beside her. In no bit of her that the eye could discern was there a memory of the night before; of the bitter, disastrous hour in the little room at the club house on La Turbie; of the desperate drive down the mountain, or of the scene at the fire place with Yvonne and John as the actors. The poise of her was regal, arrogant. The crowd that watched the turn of her head, the shimmer of her gold brown hair, the dancing of a thousand phantasms in her deep brown eyes, saw only the pride and consciousness of her golden aura and her self-indulgence. It seemed to every one in that crowd that when Joanna had looked upon them, had accepted greetings and expressions of wonder, she gave her brown crowned head a merry toss and then plunged into the seething torrent her golden wand had conjured.

Kenilworth managed to reach her. He caught her hands and hurried into a cascade of questions about the outcome of the night after the bandit took her away, but she laughed at him. "I'll think and talk of no yesterday tonight, Roddy," she bantered. "I'm living now just for the hour. Everyone who dislikes me; everyone who scorns me; everyone who loves me is here tonight, who knows? You may dance with me once a waltz, I think, Roddy. You may hold me close. I want every one to hold me close, tonight! But you mustn't talk of anything except of me just as I am tonight. Come!"

She led him to the nearest dance space. At every vision of her, wherever she went, orchestras burst into their melodies. She

"Talk about water off a duck's back! Just look at our shines, even after fifteen minutes in this downpour! There's certainly nothing quite like 'Nugget'!"

## Little Helps For This Week

As many as I love, I rebuke and chasten. Rev. iii. 19.

Great Master, touch us with Thy skilful hand.  
Let not the music that is in us die; Great Sculptor, hew and polish us; nor let

Hidden and lost, Thy form within us lie.

Spare not the stroke, do with us as Thou wilt.

Let there be naught unfinished, broken, marred;  
Complete Thy purpose, that we may become

Thy perfect image, O our God and Lord.

—Horatius Bonar.

Troubles are often the tools by which God fashioned us for better things. God Almighty casts a man down when He wants to chisel him and the chiselling is always to make him something finer and better than before. —Henry Ward Beecher.

A gem is not polished without rubbing, nor is a man perfected without trials. Chinese.

**Requisite on the Farm.**—Every farmer and stock raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

## King Alfonso Drives Auto

Has Quickness of Perception Necessary to Good Driver

King Alfonso, known to be the best driver in Spain, is an expert because he approaches the American in type and has the quickness of perception necessary to the good driver, according to Margaret Fitzhugh Browne, Boston portrait painter. Commissioned to make a character study of Alfonso for the New York Yacht Club, Miss Browne has returned to New York with her finished work.

Although Alfonso is given to driving at great speed, he never had an accident, states Miss Browne, for the reason that he thinks and acts quickly, knows his car, sees that it is kept in perfect order, and speed is fairly safe since the highways in Spain are noticeably free from traffic.

An Oil that is Famous. Though Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far abroad enough to attest its excellence, for in all these countries it is on sale and in demand.

Nothing pleases a man with a well-developed sense of humor so much as setting two chronic bores to boring each other.

Keep Minard's Liniment in the house.

## Ingredients of Bread

The inhabitants of cold countries make the darkest bread, of the tropics the whitest. Cornstarch is used as an ingredient in bread in Mexico and Central America, dried fish is used in Iceland, potatoes in Ireland, chestnuts in Italy, and during lean years the bark of trees in Russia.

## Her Kidney Trouble Quickly Disappeared

## New Brunswick Lady Tells of Benefits Derived from Dodd's Kidney Pills

Miss S. Moorehouse Advises All Kidney Sufferers to Use Dodd's Kidney Pills.

Zeedang Station, N.B. (Special). "I saw your advertisement for Dodd's Kidney Pills," states Miss S. A. Moorehouse, who lives at this place. "I had suffered with kidney trouble for over a year, so I decided to give your Dodd's Kidney Pills a trial. I have used several boxes now and have found great relief in them. I can highly recommend Dodd's Kidney Pills and would not be without them."

The reason Dodd's Kidney Pills have come to occupy such a prominent place in the home is that so many ordinary everyday ills come from sick kidneys.

Rheumatism, urinary troubles, backaches and heart disease can be traced directly or indirectly to sick kidneys. To be assured of good health the kidneys must be kept in good working order all the time.

Brands of cigars in England are being named after prominent ecclesiastical dignitaries. Holy Smoke!

Treat corns with Minard's Liniment.

About the best the man can do who tries to drown his sorrows is to make his head swim.

## CARRIED WIFE TO BED

Suffered So She Could Not Walk. Restored to Health by Lydia E. Pinkham's Vegetable Compound

Minesing, Ontario. "I am a practical nurse and I recommend Lydia E. Pinkham's Vegetable Compound to suffering women. For three months I was almost helpless and could not sit at the table long enough to drink a cup of tea. Many a time my husband carried me to bed, I would be so weak. Then he read in the paper of a woman suffering as I did who got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and have had splendid health ever since. When I feel any bearing-down pains I always take it; sometimes a half bottle or whatever I need. It is my only medicine and I have told many a one about it. Any one wanting to know more about Lydia E. Pinkham's Vegetable Compound, I will gladly write to her. I do all I can to recommend it for I feel I owe my life and strength to it." —Mrs. NEAL BOWSER, R.R. 1, Minesing, Ontario.

Do you feel broken-down, nervous, and weak sometimes? Do you have this horrid feeling of fear which sometimes comes to women when they are not well? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently will relieve this condition.

## Relieve That Lazy, Worn Out, Half Dead Look Don't Wait Another Minute

You can do wonders with your appearance. Bright eyes, cheery smile, clear complexion, snappy steps, all indicate vigorous men and women.

Your trouble may be Constipation—poisons from waste matter in the intestines circulate in the blood through your system.

Sick Headache, Billousness, Indigestion, Drowsiness, Poor Appetite and a sallow complexion generally follow.

Try them to-night—to-morrow refreshed. 25c. and 75c. red pkgs.

## ECZEMA IN SMALL PIMPLES

On Hands and Face. Itched and Burned. Cuticura Heals in Six Weeks.

"Eczema broke out in small pimples on my hands and face. The pimples were hard and red, and itched and burned. I could not put my hands in water because it made them worse. I could not help scratching and rubbing the affected parts and causing disfigurement. The trouble lasted three months."

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I purchased more and in about six weeks I was completely healed." (Signed) John A. MacDonald, South West Margate, N.S.

Nothing quicker or safer than Cuticura Soap and Ointment for skin troubles that itch and burn.
